Persional Summary:

Full Stack Developer (MERN) with a strong focus on building responsive, scalable web applications. Recently completed an intensive **MERN Stack Development program at Besant Technologies, Velachery**, where I gained hands-on experience in building end-to-end web solutions.

I combine technical proficiency in **React.js, Node.js, Express, and MongoDB** with a creative approach to UI/UX design. My background in digital marketing allows me to bridge the gap between technical implementation and business growth, ensuring that every interface I build is not only functional but also optimized for user engagement and audience retention.
